PROFESSIONAL SUMMARY

Full Stack Developer with over 3 years of experience specializing in corporate process optimization, advanced workflow automation (n8n/Python), and robust backend/frontend development. Proven track record of integrating high-demand APIs for social media analytics and managing relational databases in enterprise environments. Focused on operational efficiency, code quality, and building scalable technological solutions.

PROFESSIONAL EXPERIENCE

Bolivisión

2022 – 2025

Full Stack Developer

La Paz, Bolivia

- Engineered an advanced analytics module consuming official **Facebook, YouTube, and TikTok APIs**, enabling real-time extraction and tracking of key performance metrics.
- Automated complex workflows and internal operations using **n8n and Python**, significantly boosting operational efficiency and eliminating manual processing errors.
- Developed, migrated, and maintained robust web applications using a modern tech stack: **Node.js, React, TypeScript, JavaScript, Express, PHP (CodeIgniter), and Tailwind CSS**.
- Designed and optimized scalable relational database architectures using **PostgreSQL, MySQL, and SQL Server** to power core enterprise systems.
- Successfully integrated an automated biometric system focused on managing, monitoring, and streamlining employee meal service operations.

Rigoberto Paredes & Asociados Law Firm

Aug 2020 – Nov 2020

Web Development Intern

La Paz, Bolivia

- Executed corrective and evolutionary maintenance on the law firm's official website, improving load performance and information architecture.
- Implemented functional enhancements and UI/UX optimizations across internal platforms built with **PHP and WordPress**.
- Provided proactive technical support and resolved critical production issues to ensure high website availability.

EDUCATION

Universidad Mayor de San Andrés (UMSA)

2021 – Present

B.S. in Systems Engineering / Computer Science (In progress)

La Paz, Bolivia

- Focus:** Software development, algorithms, advanced databases, and process engineering.

Instituto Técnico Rvdo. Sebastián Obermaier

2018 – 2020

Associate Degree in Industrial Informatics

La Paz, Bolivia

SKILLS

Backend & Automation: : Node.js (Express), PHP (CodeIgniter), Python, n8n, Process Automation.

Frontend: : React, TypeScript, JavaScript, Tailwind CSS, HTML5/CSS3, WordPress, Next.js.

Databases: : PostgreSQL, MySQL, SQL Server, Relational Modeling, Query Optimization.

Tools & Methodologies: : Version Control (Git), Firestore, Official API Integration, System Deployment.

LANGUAGES

Spanish: : Native.

English: : Intermediate (B1) – Focused on technical reading, documentation, and professional communication.
